

GASOLINE DIESEL HIGH-PRESSURE WASHER

Standard configuration

- Copper Cylinder Ceramic Plunger Crankshaft Connecting Rod Self-Priming Pump
- Powerful power with overload protection 4-stage motor
- Motor aluminum alloy shell 8mmx10M high pressure tube
- 4 quick connect nozzles (0°, 15°, 25°, 40°)
- The pressure is adjustable
- High-pressure spray gun with safety buckle
- Water hose and spray gun hook
- Water inlet pipes and their components
- Switch control box
- Stainless steel chassis
- Pressure gauge

Matching

- Voltage and power can be specified
- Turn off the gun and shut it down

Technical parameters
